Our helpline gives technical and business advice to farmers on:

cross compliance | water use and quality pesticide use, including Integrated Pest Management planning

1 Jan: You must start following the rules in the cross compliance guide from this date. The Basic Payment Scheme (BPS) year starts. Land used to apply for BPS must be eligible all year.

1 Jan: For any land located in a Nitrate Vulnerable Zone (NVZ), from this date, you can apply organic manure with a high readily available nitrogen content (for example, slurry, poultry manures or liquid digested sewage sludge) to grassland and tillage land on shallow or sandy soils if conditions are suitable and you adhere to the quantity restrictions for application of these manures. This is also subject to the Farming Rules for Water being complied with and there is agronomic justification. (SMR 1)

1 Jan: For any land located in an NVZ, this is the beginning of the year for assessing the annual amount of livestock manure applied to your land. (SMR 1)

16 Jan: For any land located in an NVZ, from this date, you can apply manufactured nitrogen fertilisers to grassland and tillage land if conditions are suitable. This is also subject to the Farming Rules for Water being complied with and there is agronomic justification. (SMR 1)

1 Feb: For any land located in an NVZ, from this date, you can apply organic manure with a high readily available nitrogen content (for example, slurry, poultry manures or liquid digested sewage sludge) to grassland and tillage land on all soil types if conditions are suitable and you adhere to the quantity restrictions for application of these manures. This is also subject to the Farming Rules for Water being complied with and there is agronomic justification. (SMR 1)

28 Feb: For any land located in an NVZ, this is the end of the additional quantity restrictions for application of organic manures with a high readily available nitrogen content. This is also subject to the Farming Rules for Water being complied with and there is agronomic justification. (SMR 1)

1 Mar: You must not cut or trim hedges or trees from this date, but you can carry out hedge and tree coppicing and hedge laying from 1 March until 30 April. Fruit and nut trees in orchards, or trees acting as windbreaks in orchards, vineyards, hop yards or hop gardens are not included in the ban. (GAEC 7a and 7c)

31 Mar: If you hold a water abstraction licence, expect to receive your annual bill (or first part charge if you hold a two-part tariff agreement) for the forthcoming financial year. (GAEC 2)

1 Apr: You must not burn heather, rough grass, bracken, gorse or vaccinium on land, other than in upland areas, from this date. The burning season for land not in an upland area is from 1 November to 31 March. (GAEC 6)

1 Apr: If you hold a winter or all year-round water abstraction licence (authorising abstraction outside the period April to October), the Environment Agency will make actual abstraction return forms available to you from 1 April. You then have 28 days to send your readings to the Environment Agency. (GAEC 2)

16 Apr: You must not burn heather, rough grass, bracken, gorse or vaccinium in upland areas from this date. The burning season for upland areas is from 1 October to 15 April. (GAEC 6)

30 Apr: For any land located in an NVZ, from this date, you must have recorded the number of 'specified' livestock kept on your farm during the previous calendar year and calculated the amount of nitrogen they produced. You must also record the number and type of livestock in a building or hardstanding during the previous storage period. (SMR 1)

1 May: You must not carry out hedge or tree coppicing or hedge laying from this date. (GAEC 7a and 7c)

1 Aug: If you have been granted a derogation by RPA, you may be able to cut or trim hedges throughout August, to sow oilseed rape or temporary grassland. (GAEC 7a)

1 Aug: For any land located in an NVZ, this is the start of closed period for applying organic manure with a high readily available nitrogen content (for example, slurry, poultry manures or liquid digested sewage sludge) to tillage land on shallow or sandy soils except where crops will be sown on or before 15 September. (SMR 1)

1 Sept: You can cut or trim hedges and trees from this date. (GAEC 7a and 7c)

1 Sept: For any land located in an NVZ, this is the start of closed period for applying organic manure with a high readily available nitrogen content (for example, slurry, poultry manures or liquid digested sewage sludge) to grassland on shallow or sandy soils. (SMR 1)

1 Sept: For any land located in an NVZ, this is the start of closed period for applying manufactured nitrogen fertilisers to tillage land. (SMR 1)

15 Sept: For any land located in an NVZ, this is the start of closed period for applying manufactured nitrogen fertilisers to grassland. (SMR 1)

16 Sept: For any land located in an NVZ, this is the start of closed period for applying organic manure with a high readily available nitrogen content (for example, slurry, poultry manures or liquid digested sewage sludge) to tillage land on shallow or sandy soils which have been sown with crops on or before 15 September. (SMR 1)

1 Oct: You can burn heather, rough grass, bracken, gorse or vaccinium on land in upland areas from this date. (GAEC 6)

1 Oct: For any land located in an NVZ, this is the start of closed period for applying organic manure with a high readily available nitrogen content (for example, slurry, poultry manures or liquid digested sewage sludge) to tillage land on soils which are not shallow or sandy. (SMR 1)

15 Oct: For any land located in an NVZ, this is the start of closed period for applying organic manure with a high readily available nitrogen content (for example, slurry, poultry manures or liquid digested sewage sludge) to grassland on soils which are not shallow or sandy. (SMR 1)

31 Oct: If you hold a summer water abstraction licence (authorising abstraction wholly within the months of April to October), the Environment Agency will make actual abstraction return forms available to you from 31 October. You then have 28 days to send your readings to the Environment Agency. (GAEC 2)

1 Nov: You can burn heather, rough grass, bracken, gorse or vaccinium on land, other than in upland areas, from this date. (GAEC 6)

30 Nov: If you have a two-part tariff agreement for your water abstraction licence, expect to receive your second part charge after 30 November. (GAEC 2)

1 Dec: BPS payment window opens. (BPS guidance)

1 Dec: You need to carry out your annual inventory of sheep and goats. (SMR 8)

31 Dec: Official end of the BPS scheme year. (BPS guidance)
